Mr. Marian BANAŚ
President of the Supreme Audit Office of Poland

POLAND

Dear President,

I am very pleased to be informed on your appointment as the new President of the Supreme Audit Office of Poland. Please accept on this occasion, my congratulations and heartfelt greetings.

As you might be informed, during this last 8 years, ALSAI and NIK have tightened a very close professional cooperation. NIK was one of the biggest supporter of ALSAI, contributing in this way to the modernization of the Albanian Supreme Audit Institution. Thanks to the personal commitment of the former presidents of NIK, Mr. Kwiatkowski, Mr. Jezierski and Vice President, Mr. Kutyla and the trainings developed by the NIK experts, ALSAI has a new generation of auditors, equipped with the proper skills in the audit field, thus increasing the quality of our audit work.

A special place in our cooperation takes without doubt our common IPA projects "*Strengthening the external audit capacities in Albania*", which was very fruitful.

It has been an enriching opportunity for me and the ALSAI auditors to work close and learn from the experience of the NIK experts in striving to achieve sustainable development and better governance in the public sector, contributing in this way to a better future of Albania and its citizens.

For all the above mentioned, I would like to express my deepest appreciations and ascertain you my willingness, to further continue in the future this mutual collaboration.

I would like to wish you further success as you will take your work forward and I hope to meet you soon.

With my Kindest Regards,

yours sincerely,
