

Luxembourg, 2. 8.

Dear Chairman LESKAJ

To digest the manifold impressions which I gained during my visit to Albania has taken some time.

Compared with my previous visit I have found a considerable more modern Tirana without having lost its charme. It is my impression that Albanias capital town offers an infrastructure that is promised a great future in the area of tourism.

And if I may allow myself to remark : ALSAI is part of this strive for modernisation.

To find on the spot the reason why in the circles of public audit, especially in the International Organisation of Supreme Audit Institutions, ALSAI is highly esteemed and to be allowed to speak to highly motivated officials of your Institution means for me a great satisfaction.

I should like to congratulate you on the extremely well designed „ museum“ which has impressed me.

The meeting with the President of the Republic Mr. Ilir META and the Parlements Speaker Mr. Gramoz RUÇI I consider as a privilege. Also the farewell-dinner with so many dignitaries I will never forget.

I am very pleased to express my gratitude to you.

yours sincerely,

Hubert Weber
