

A view of the Netherlands

A beyond GDP dashboard with goals and results

Chayenne Zuiderhoek

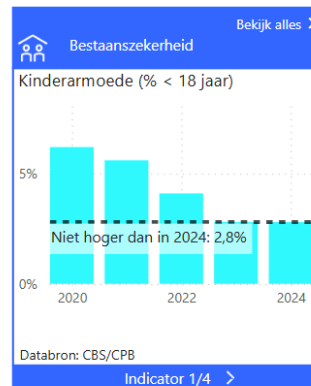

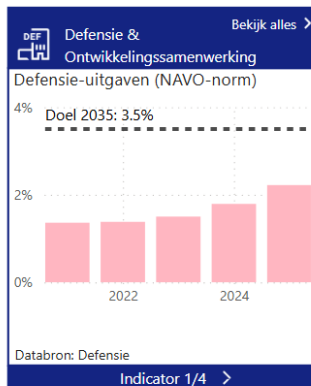

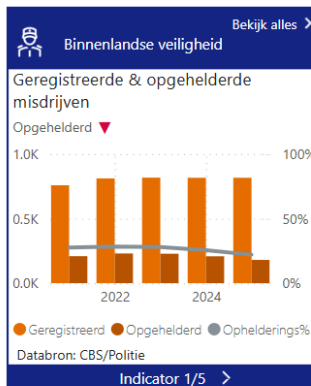

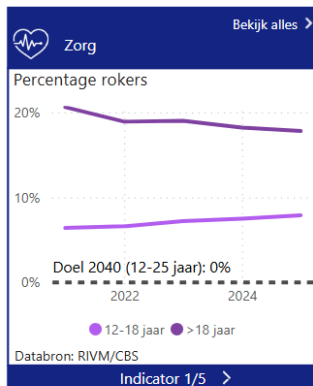

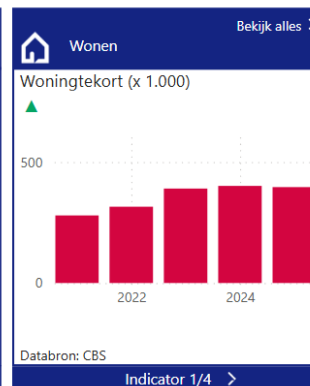

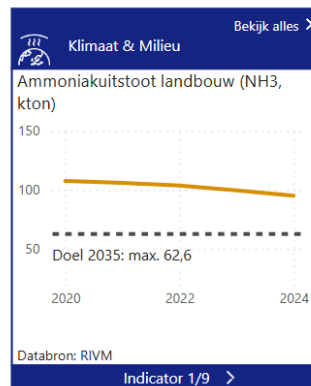

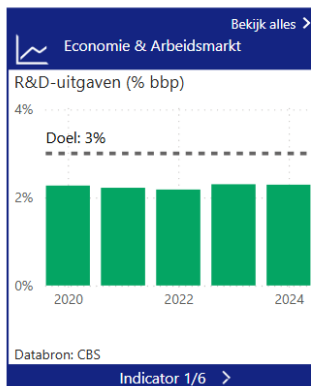

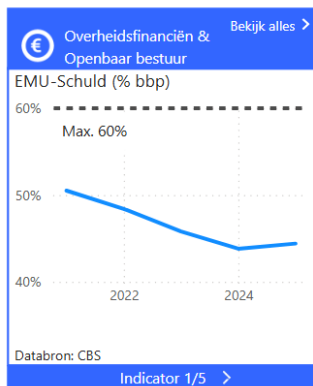

**Netherlands
Court of Audit**

What does it cover?

- 10 themes:

- Around 60 indicators: the indicators and targets are based on applicable laws, treaties and multiannual government policies
- **Alignment in our choices with other institutions** for themes and indicators

Why this dashboard?

“You can’t reach your destination if you don’t know where you are and where you want to go”

- Longstanding request for a core set of indicators
- Need for focus on long term developments
- Why us?
- Other parties tried but with no result so far

Further development

“speak with 1 common language”

- Further integration in our accountability- and budget cycle
- Need for cooperation
